Filed:	29 July 2003)		
Entitled:	ARTICLE DISPENSING AND COUNTING METHOD AND DEVICE			

PETITION PURSUANT TO 37 CFR §1.47(b)

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

McKesson Automation Systems, Inc. ("McKesson") hereby submits an application for patent pursuant to 37 CFR §1.47(b) on behalf of joint inventor Michael A. Bergeron ("Bergeron"). Bergeron was employed by McKesson and he conceived portions of the subject matter of the above-identified application during the normal course of his duties while employed by McKesson and while employed as a consultant after his normal employment ended. McKesson through its attorneys, Thorp Reed & Armstrong, LLP ("TRA"), has made a *bona fide* attempt to procure Bergeron's cooperation, yet Bergeron has refused to execute the application.

Pertinent Facts

While employed by McKesson, Bergeron had an obligation to assign inventions to his employer, McKesson. During his period of employment with McKesson, Bergeron and several other McKesson

employees began development of a pill singulating mechanism which forms a portion of the subject matter of the above-identified application. Sometime before the above-identified application was filed on 29 July 2003, the employment relationship between McKesson and Bergeron ended. The remaining joint inventors, however, continued to perfect the subject matter covered by the above-identified application.

Additional subject matter incorporated into the above-identified application was believed to be conceived by Bergeron during a period while Bergeron was employed by McKesson as a consultant. This additional subject matter has been assigned by Bergeron to McKesson. (see "Exhibit A").

On 22 December 2003, TRA sent a letter (marked "Exhibit B") to Bergeron by Federal Express. The purpose of the letter was to request Bergeron's assistance in reviewing the application to confirm TRA's conclusion as to Bergeron's inventive contribution and to execute a declaration and an assignment of the application in favor of McKesson.

The letter also forwarded to Bergeron a non-disclosure agreement (marked "Exhibit C"). The non-disclosure agreement was necessary to protect the additional confidential material developed by the remaining joint inventors after Bergeron's employment relationship with McKesson ended and which appears in the above-identified application. The non-disclosure agreement had previously been reviewed by Bergeron, and his requested changes to the agreement had been made. A postage paid return envelope was also provided to Bergeron with the letter of 22 December 2003.

On 9 January 2004, Bergeron responded by letter (marked "Exhibit D") stating that he is "not refusing to join in the aforementioned application". However, he did not execute the requested non-disclosure agreement needed to maintain the confidentiality of subject matter conceived by the other inventors.

Remarks:

Proof of Inventor's Refusal to Join

It is respectfully submitted that Bergeron has an obligation to assign the above-identified patent application to his former employer and that McKesson has made a *bona fide* attempt to procure Bergeron's cooperation in this matter. In a justifiable attempt to protect confidential information, McKesson requested that Bergeron sign a non-disclosure agreement. After some discussions, McKesson drafted a non-disclosure agreement, which included amended terms as specifically requested by Bergeron. Bergeron has refused, however, to agree to maintain the contents of the application confidential until the application is published. It is respectfully submitted that McKesson, through its attorneys TRA, has made a *bona fide* attempt to procure Bergeron's cooperation without success.

Statement of Last Known Address

The inventor's last known address is as follows:

Michael A. Bergeron
4312 Overview Drive
Pineville, LA 71360

Proof of Proprietary Interest

It is respectfully submitted that McKesson has a proprietary interest in the above-identified application. McKesson's proprietary interest in the above-identified application arises from the fact that certain of the subject matter covered by the above-identified application was conceived by Bergeron at a time when Bergeron was employed by McKesson as the head of Research and Development and had an obligation to assign inventions to his employer. Additional subject matter, believed to have been conceived by Bergeron while working as a consultant for McKesson, has been assigned by Bergeron to McKesson (see Exhibit A).

Proof of Irreparable Damage

It is respectfully submitted that a Notice of Missing Parts was issued by the United States Patent and Trademark Office on 29 October 2003. The Notice of Missing Parts established a two-month deadline (with the availability for extensions of time under 37 CFR 1.136(a)) for McKesson to submit the required oath or declaration in compliance with 37 CFR 1.63. McKesson will suffer irreparable harm due to Bergeron's refusal to cooperate because the application will become abandoned if the proper oath is not submitted in response to the Notice of Missing Parts.

For the foregoing reasons, it is respectfully requested that McKesson's petition under 37 CFR § 1.47 be granted.

Respectfully Submitted,

Edward L. Pencoske

1. Use the 'Print' feature from your browser to send this page to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

Re: Our File No. DB000974-001 (016055.084229)
McKesson APS Patent Prosecution

Dear Mr. Bergeron:

McKesson has filed a patent application entitled Article Dispensing and Counting Method and Device (Shutterpuck). As a result of my discussions with you and various McKesson employees, you have been identified as an inventor based on work performed by you prior to your leaving McKesson. McKesson would like for you to review this patent application to confirm our conclusion as to your inventive contribution and to execute a declaration and an assignment of the invention in favor of McKesson.

Because the patent application contains material contributed by other inventors as well as work performed after your departure, before forwarding a copy of the application to you, we wish to have the enclosed non-disclosure agreement (NDA) signed and returned to me in the enclosed envelop. The NDA has been modified to include the changes that you have requested. After I receive the executed NDA, I will forward to you the application, declaration, and assignment.

I look forward to receiving the executed NDA by 9 January 2004. A self-addressed, return Federal Express envelope is enclosed for your convenience. If I do not receive the executed NDA by 9 January 2004, I will assume that you do not wish to cooperate with McKesson in reviewing the application and executing the declaration and assignment.

NONDISCLOSURE AGREEMENT

This Agreement, dated as of this ____ day of _____, 2003, is between McKESSON AUTOMATION SYSTEMS INC. ("McKesson") and MIKE BERGERON ("Consultant"), a consultant for McKesson.

WHEREAS, McKesson desires to disclose certain information to Consultant in his capacity as a consultant for McKesson, which information is of a proprietary and confidential nature, for the purpose of permitting Consultant to review certain McKesson patent applications and related activities (the "Services");

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants set forth herein, the parties agree as follows:

1. As used in this Agreement, the term "Confidential Information" shall mean all information disclosed by McKesson to Consultant in connection with the Services, including, but not limited to, any information about prototype products, beta products, or any other products not commercially available such as information concerning construction, operation, or workflow.
2. Confidential Information does not include information that: (i) is approved for release by the written authorization of McKesson; (ii) is or becomes publicly available by other than unauthorized disclosure by Consultant; or (iii) is received by Consultant from a third party who is rightfully in possession of such information free of any obligation to maintain its confidentiality.
3. Consultant agrees that, except as required by judicial order or governmental laws or regulations, Consultant shall use the Confidential Information solely for the purpose of performing the Services. Consultant agrees to hold the Confidential Information in strict confidence. Consultant shall not, in whole or in part or in any manner or form, assign, subcontract, or otherwise transfer the Confidential Information or Consultant's right to evaluate or work on the Confidential Information to any other party without the express prior written permission of McKesson.
4. If Consultant, or anyone to whom Consultant transmits the Confidential Information, becomes legally obligated (by oral questions, interrogations, requests for information or documents, subpoena, investigative demand or similar process) to disclose any of the Confidential Information, Consultant shall use his best efforts to provide McKesson with prompt written notice so that McKesson may seek a protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. If such protective order or other remedy is not obtained, or if McKesson waives compliance with the provisions of this Agreement, Consultant will furnish only that portion of the Confidential Information which he is legally required to disclose and will exercise his best efforts to obtain reliable assurance, to the extent that such assurance can be obtained, that confidential treatment will be accorded the Confidential Information.
5. Upon termination of the Services, or at any time upon McKesson's written request, Consultant shall promptly return to McKesson any and all Confidential Information in Consultant's possession, including all copies thereof or extracts therefrom held by Consultant, except for documentation directly related to any patent application on which the Consultant is or should be listed as an Inventor, copies of which Consultant may retain but shall remain Confidential Information subject to the restrictions set forth herein.
6. This Agreement sets forth all of the promises, agreements, conditions and understandings between the parties respecting the subject matter hereof and supersedes all negotiations, conversations, discussions

and agreements between the parties concerning such subject matter. This Agreement may not be amended, changed, modified or altered, except in writing signed by both parties.

7. This Agreement shall be governed by the laws of the State of California without regard to its rules regarding conflicts of law.

Dear Mr. Pencoske:

I do not consider delivery of the non-disclosure agreement for signature a bona fide attempt to deliver the 'Article Dispensing and Counting Method and Device (Shutterpuck)' application for my review.

In order to participate in the patent application, please forward a copy to my attention for review prior to execution of an Oath or Declaration.

While you may feel the application papers contain proprietary information, I am not refusing to join in the aforementioned application as defined by 37 CFR §1.47.

Sincerely,

Michael A. Bergeron
